SURVEYED BY PHILIP CHAUNCY DISTRICT SURVEYOR,
December 1858 and August 1859.

NOTE A good post squared and pointed at the top 6 x 6 inches and two feet above the ground and branded with the numbers of the respective allotments is placed at each angle, and trenches dug therefrom in the directions of the boundaries. A barked stake and trenches mark every ten chains on all boundary lines. In the forest the trees are blazed on each side of the lines instead of trenches being dug at the ten chain stakes.
