Ship "Lady Kennaway"

Report of the Immigration Board of Inspection

Melbourne Dec 23. 1848

Sir

We have the Honor to inform you, that according to your instructions we on the 7th instant proceeded on board the Lady Kennaway, which arrived at Port Phillip on the day previous with Female Orphans, Immigrants, after a voyage of 85 days. The Females in question have been selected out of several of the Poor house Unions in Ireland, and consist of Girls of the age from 14 to 19 Years. Their General aspect indicates good health, and gives the impression that they belong to the humbler ranks of life. They are generally of a stout make, rather low in stature, and are endowed with strongly marked Irish Physiognomies: They are almost exclusively of the Roman Catholic Religion, and it would appear that most of them have been in Service of some kind or other, either in Town or Country, previous to leaving their native homes.

We do then consider them to be on the whole, a most seasonable supply and acquisition to this City and its environs, and hope that we may in future have many importations of a similar kind, and as they come originally from small Country towns and adjoining districts, they have never seen or been accustomed to witness those demoralizing scenes too frequent in large Towns in many parts of the Empire, and we doubt not but that they will continue to Conduct themselves as hitherto and keep in the paths of virtue. (that was fortunate as regards the Government) Every person that we have spoken with, express themselves well pleased with them. They are most anxious to please their Employers, and as they have much to learn in the line of their callings, we doubt not but that they will be teachable and make good and useful Servants. Very few of them can read, and scarcely any of them can both read and write, although each of them was given a prayer book and testament from their respective Unions.

They are represented as having been generally well conducted during the voyage, and amenable to the Rules and regulations established for their observance, some few of them were inclined to be rather noisy and boisterous occasionally, and would not hesitate at times to let out a bit of an oath.

The importation by this vessel consists of Seven families comprising 19 Souls. Orphan Girls 191. One Girl aged 11 Years sent out to join her parents in Melbourne to whom She was delivered up, Infants 7 Infant Males 4, making a total of 215 Souls. Only One death, that of a child occurred on the passage.

The people are arrived here in excellent health, none being on the Sick List, and they certainly exhibited the appearance of having been on full allowance on the voyage.

Not a single complaint of any kind, was made by any of them, all expressed themselves satisfied with the treatment they experienced during the passage.

The Surgeon Superintendent being an old Navy Surgeon, and besides having had experience in this particular line of employment, seems

seems with the Cordial Co-operation of the Master and other Officers of the Ship to have maintained strict order, and to have preserved that moral restraint so very necessary under the peculiar circumstances of this Case.

We deyleave in this place to represent to Your Honor, to be brought under the consideration of the proper authorities at home, should such be deemed expedient, that in cases likely to happen in future where a large number of Immigrants have been selected either in Ireland or Scotland, a great benefit would be conferred on them by substituting a quantity of oatmeal for a portion of the articles of diet, as supplied at present by the dietary scale, together with a proper proportion of Molasses to be used with the porridge in lieu of Milk, the article generally used on Shore, such substitution would be most grateful and better suited to their tastes, and habits, but we consider would be Conducive to their well being and health. There is a prep made with Maize meal, in the same manner that Oat meal is treated equally palatable, nutritious, and wholesome which during the voyage might be alternated with the porridge with much benefit.

It may not be out of place here to remark, that the applicants for the service of these females were numerous and that at the present time they are all hired in respectable places, but three not yet engaged

("Signed") John Patterson Chairman
("do") Henry Sims Esq.
("do") P Lussen M.D.
