I have the honor to state that encroachment made by John Wetherall and others at the time they fenced in the ground, and the lines marked by me in 1839. were correct at the time I discovered the illegal encroachment line in 1842.

I believe the Government had better give some put up by Government men, who are better than a space of enclosure from the Eastern Boundary line. I do not know by whose authority the fencing has been removed. It was not put up straight at first.

Sir,
In returning the enclosed application to your Honor from Henry Wells, regarding that section 1015 in the parish of Cuttuhar, might be withdrawn from the date of Occupation. On the 24 June next I shall be happy to state that the above section was applied for by me. The usual manner, by which I believe withholds an occupation license for the adjoining section No 21. That in reference to the Registry of Application for section under the Regulations of 21 August 1841 I find Henry Wells's application for section 8 and 14 in the same parish to be put up, which are to be sold on 24 June next as lots 2 and 5. They further state that Mr Wells's public house is more than a quarter of a mile from the boundary line of section No 15, and that his garden is within the Revenue of 279 acres. Which the Crown Commission generally allows the purchase. The use of and the purchase is not in cultivation.

No 46/53
27 May 1846

Sir,
In returning the enclosed application to your Honor from Henry Wells, regarding that section 1015 in the parish of Cuttuhar, might be withdrawn from the date of Occupation. On the 24 June next I shall be happy to state that the above section was applied for by me. The usual manner, by which I believe withholds an occupation license for the adjoining section No 21. That in reference to the Registry of Application for section under the Regulations of 21 August 1841 I find Henry Wells's application for section 8 and 14 in the same parish to be put up, which are to be sold on 24 June next as lots 2 and 5. They further state that Mr Wells's public house is more than a quarter of a mile from the boundary line of section No 15, and that his garden is within the Revenue of 279 acres. Which the Crown Commission generally allows the purchase. The use of and the purchase is not in cultivation.

I have the honor to acknowledge the receipt of your letter of the 22 instants, which came to hand this morning, and to inform you that your first application of the 3rd instants was received by the Commission. As to at being for his report. It is too late to be included in the quarter date, but we doubt if not, in the next.

No 46/88

With reference to your Honor's minute dated 28 July 1846 attending to the correspondence and remarks by the Surveyor General, that I have not confidence of the Picking to the head of my department. I beg leave to inform your Honor that the Picking have been duly sent & I beg leave to inform your Honor that I do not recollect to say that the Picking has been very little for the time he has been in the Dublinne Bog, which fact can easily be ascertained by the place he has passed since he was sent to that part of the County.

With respect to the appearance received. I think it is a pity that I might have received had not the Picking been in an area whilst I was employed in the neighbourhood of Dublinne.

Yours &c. R. Webb.

Port Quay 19 June 1846

I have to report for your Honor's information, that I arrived at Port Quay on 2nd June. After being three weeks on the coast caused by the heavy rains I had frequently to go the day out of the ground which was marked in mud up to the tide line. On crossing the stream I broke the pole of the drag which drew me from days from the accident alone. On my arrival at Port Quay I called on the Attorney to ascertain the localities of the lands applied for, and the adjoining day I commenced to survey. I have measured the special survey as marked by the signs and found that it was badly and incorrectly marked and ascertained in quantity. The fact is that the marked area on the ground and was according to the lines shown on the map. The sign shown of the coast seems to be very correctly drawn. The west line I remarked although in many places rough and water up to my knee and in remarking the North line found the length the shown longer than even on the sign map. The chain was never out of my hand during this day.

Yours &c. R. Webb Dublinne.

Port Quay 19 June 1846

I have the honor to report for your Honor's information that I called on Mr. Webb Dublinne Picking & found all maps of changes that he has prepared within the last year. and the only thing he refused which he promised to forward to that Quarter was a tracing of a portion of the River Glenside, about 50 survey miles. I have received no assistance whatsoever from Mr. Picking and I regret it to be my painful duty to declare that Mr. Webbman has no energy or industry, and is not fit to be left to do as he pleases. He has not put forth any former instructions occurring the time of Mr. Picking a most unnecessary. He has not put forth any former instructions

as directed by the Engineer General, for the duty to
be performed by your Surveyor or Foreman

A small tracing of the River River is enclosed
-which is required.

Port Fairy 21 July 1846

It is to be done as you have completed the plans and
descriptions of the Survey of Warrnambool some
and Cultivation Allotments. you will mark out
these portions the land applied for to purchase by
Mr. Rutledge furnishing the usual plan and
description. The situation is described as follows.
situated on the north by the Special Survey of
Mr. Rutledge, on the East partly by the River
River and a boundary and on the South and West by
the same boundary. It is said to contain about 800
acres. it is to be divided into three equal portions
as nearly as possible having regard to water frontage
and soil.

I presume the Survey of the Survey is complete as ample
time has been allowed to complete that Survey. The plan
has been called for at the Quarters.

When completion of this duty you will mark out with
