 In. I have the honor to forward Mr. Williams  
 Williams & Furness's report of progress for the month of  
 October and November 1846.  
 10th Dec 1846  
 Mr. Williams & Furness

received a communication from your office apprising me, that  
 Mr. Sawyer had succeeded in the plan, for the purpose  
 of marking a boundary line between the British and the  
 North Americans. I am particularly pleased that the  
 line as laid by the type is the the starting point, but  
 any work to be done to the extent of all types & count  
 but expect my response that a large error should be pointed  
 & the correct and a comparison had been made by you  
 on assumption that it is correct when error have been  
 discovered & has been made by the types. When the  
 as measured by the Dark is 10 chains up than 50 miles  
 whereas the types make the distance from the  
 mile between the types amounts to 30 1/2 miles.  
 A great error should occur in so short a distance  
 I have a right to say that the types is cast & error  
 and in the actual measurement I have found  
 with respect to the congruence I have no hesitation  
 in asserting that the types has not the same  
 in great accuracy and in great preference  
 can be placed in a Chamberlain's corner and range  
 even if the Chamberlain was one to be deposited on at  
 the beginning of the boundary line will be a very serious  
 laborious and difficult task and if done, should be  
 perhaps, you as a & decide the grades of the  
 ground as well as to mark a line that should be  
 with disputes about territory.

The congruence by the types is to be made and might  
 lead to future disputes involving more expense  
 than is anticipated. I beg leave to offer a suggestion  
 that the boundary be fixed by the Government as to  
 no doubt has the Government sufficiently portable  
 for the purpose, and Chamberlain's that the error  
 appears upon. The Chamberlain might be to be  
 water of Canada, and the remaining distance  
 could be accurately measured and Chamberlain's  
 might be carried on through the whole stretch of  
 Port Phillip and the principal features surveyed.

 I have the honor to forward a Plan  
 showing some portions above two acres in the parish  
 of Dunrobin, Bulla Bulla and Bulla manure which has  
 been indicated on the application of the same  
 owners of purchasing, also two portions marked  
 on the west side of the Bannockburn and Bulla  
 Creeks together with the names descriptions,  
 with regard to the two last named portions I beg  
 leave to suggest for your approval that the same  
 land between the parishes of Dunrobin & Bulla manure  
 bounded on the west by the Bannockburn River and the  
 east by the Bannockburn & Bulla Creeks may

 Sir, In forwarding the receipt for a plan (see  
 minute on the 23<sup>rd</sup> instant) showing the  
 subdivision of some portions above two acres in  
 the parishes of Dunrobin Bulla Bulla and Bulla manure  
 I have the honor to state that on carefully examining  
 the portions in Dunrobin I found a discrepancy in  
 the length of the lines as shown on the plan of the  
 plan by Mr. C. Motion formerly for the survey  
 I also found a discrepancy in the plan of Bulla manure  
 and no 5 of Bulla manure conveyed by Mr. Draftsman  
 Bank.  
 Sir, Robert Hutt

 Sir,  
 I have the honor to inform you that I

also wants upon the removal of Mr. Dickson, and  
 by & state that I wish upon Captain's demand the  
 being dependent upon who comes with me  
 upon that it would be highly improper for  
 Mr. Dickson to return to that part of the country  
 unless he has shown any particular reason  
 as regards activity - Mr. Dickson was removed by  
 order of Mr. de Sade who was aware of his unwholesome  
 habits and wish to see close supervision would do  
 little or nothing. I have a favorable opinion of  
 Mr. Dickson as a manager but not of his activity  
 he has done as do I consider he should be left to do  
 as he please,

I gave him instructions to mark out allotments  
 at Portland by letter dated 21 July 1846 which was  
 conveyed at Port Jervis (in consequence of the night  
 of your letter No 47/18) and I find nothing has been  
 done. at the time I promised him with instructions  
 I presume he has completed the survey which will  
 return in a few days.

With reference to other applications for land at  
 Portland the branch of your department has no  
 authority to do so I find upon enquiry that the  
 power the Department is equally ignorant of the  
 matter  
 I have it I should  
 imagine  
 continuation of both reference to Mr. Dickson  
 No 47/18 of 12th and 13th August they are both  
 enquiries on special licence which as per a com-  
 plete they will no longer belong to the Department  
 under existing circumstances
