Edward Bennett 8/49/137 April 12th He soon as your agreement and party are ready to have the honor you will report the same to me as your delay and advance will commence from the day you leave. You will furnish yourself with a counterpane Surveyor chain, instrument for drawing, stationery &c from the Attorney of £100 - for answer. On your arrival at the Boston River you will report yourself to the Town Commissioners by the 15th and will receive from that Committee the necessary instructions to the particular position of the Murray District to be surveyed. The Surveyor Survey will embrace the River, Creek, Swamp, Lagrove, Range, road tracks, borders of South, West, East or Plains. The place to be drawn on a scale of two inches to a mile; to be furnished with a scale and South point, and plan to show all the features of the ground and in fact to contain the total result of the Survey, particularly delineating any buildings, fences or other stations, and to bear a title, occasionally noting the variation of the compass. The plan

should also show by small writing in general terms the nature of the County and whether divided or not, also a description of the soil such as good, tolerable, alluvial, light, forest, bog, heavy &c. or Ranges are to be taken to remarkable hills and their distance noted where it can be obtained. The General Survey of the County is of the first importance but should a plan of a Village, or town be required, it is to be drawn on a scale of eight chains to an inch and to show the features of the ground and take bearings of marked trees, so as to enable any one to recognize the course of that line. Then a large tract of County is surveyed it can be reduced to a scale of half an inch to a mile for delineations of County. The plotting of the bearing and distance can keep pace with the progress of the survey, but the completion of the plan has better be delayed until the wet season of the year which will be passed field operations; and will render it unnecessary to keep a full party, also save expense to the Department and prevent the plan and descriptions of the County is completed, it is to be sent through the Town Commissioners direct to the Surveyor in Charge, under cover to His Honor the Bishop. Accompanied by an explanatory letter of transmission. Down Abstract for pay and allowance in lieu of equipment you will forward in the same manner also your monthly reports of progress which are to be transmitted with a model of the Government the progress of the Survey (Sd) R. Survey made
April 14th In reply to your letter of the 11th inst. I beg
to state that it is not usual for the Government to mark out
the corner of land purchased many years ago. The land
in question was sold to Mr. Brown in the 3rd October 1839
and the reference there I have doubt have been cut down
(Signed) R. B.

Survey made
April 14th As you have reported that the Survey
of that portion of the country left unsurveyed by the
late Mr. Seave has been completed and have returned
to Melbourn in the purpose of laying down your work
I am of opinion that you had better continue the Survey during
which the weather will permit field operations, and you will then
be proceed with the Survey of Antelope Creek from where the
Southern Boundary line of the parish of St. Albans crosses it
and take it and its branches up to their source in the
Dividing Range. There along the Dividing Range to Mount
St. Albans you will also have the Vana River and
its branches up to the Range and afterwards continue the
Range from Mount St. Albans to the Vana River by the foot
and the present dividing wall across the main Range
then will complete the Range from Melbourn with the
Mt. Melbourn cattle station and then it connects with a
new point in your Survey. You can furnish yourself
with any bearings you may require from the maps of the
Office (Signed) R. B. Seabolt

as to the location in your licensed occupation. It would
appear from your application that it is the same land
applied for by Messrs Scott & Co. & by Messrs & Co. & by
Messrs Scott & Co. & by Messrs & Co. & by Messrs & Co.

Sept 19/289 July 13th It would appear from an application
put in by Messrs Mills & Co. that they claim a portion
of your run on the Little River. I have thought to request
that you will see the above Gentlemen with as little
delay as possible and communicate the result to this office
as you have cannot be absented without this is done. 18th 1894

80 mg 1291 July 13th With reference to the subject of Roads, I beg leave to state to your honor that old tracks which are generally worn on the various plains have been considered as roads in the Middle District until permanent roads have been marked out and duly proclaimed. - On this District no roads have been fully proclaimed but merely notices of proclamation made. Since December 1840 only two leading lines of Road have

have been marked by the Government, and as soon as note
of a proclamation has published the old tracts were closed
purchasing and the public thereby private having access to the
same tracts. Should further observe that with a main
word is proclaimed no parties can claim the attention of
quartz miners to have a road of occupation marked as
shown by the act 4 William IV c. 11 (23) Robert Stoddall

Friday 16th July 1842. July 16th With reference to my letter of the 16th Sept 41

your letter of the 16th Sept 41 I did not mention the
reasons I have to have this land marked I beg leave to
request you that I am responsible for any improper order
given through my instructions should not have been questioned
then reply was abrupt and uncalled for. Had you opposed any
suggestion it would have been viewed with civility on my part
(Signed) Robert Stoddall

Monday 24th July 1842. July 16th I have to acknowledge the receipt of a
check enclosed in letter of the 16th Sept 41 of 12 shillings 6 pence the check
amount and the amount at the time of the receipt of the money
will it return with the proposed bill? This money will remain
the name of the tract at some future period. I have also to
acknowledge you that a private Company has been secured
from Lundy and with the proposed the first expedition. You
will have an assistant for the purpose of measuring land for
sale as soon as he has completed his present duty. R.M.

Monday 24th July 1842. July 17th In reply to your letter of yesterday I have
to request you that I consider you may quite sufficient
