

No 42/1935

13<sup>th</sup> Oct 1842

The Clerk of the Works  
Reporty upon the state of Leadmill

Clerk of Works Office  
Melbourne 13<sup>th</sup> October 1842

Sir

In answer to your Honor's letter  
No 42/1397 of date 12<sup>th</sup> Instant in reference  
to the Lead mill, I beg leave to state  
that various means have been tried to  
regulate the motion of the Wheel, but  
in consequence of the timber shrinking,  
in its present state, it does not work to  
my satisfaction. I am still endeavouring  
to do what is requisite, and hope in a very  
short time to be able to report it in  
permanent working order —

I have the honor to be

Sir

Your Honor's

most obedient servant

His Honor

C. J. La Trobe Esq

— — —

James Kattenberg

Clerk of Works
