Note:

These lots are situated in the Parish of Mooroolbark, about 23 miles from Melbourne, and consist for the most part of densely wooded land. The soil is poor, and badly grassed, they are adjacent to the Running Creek, which is a constant stream, and to which the most practicable access is afforded. A road has been marked three chains wide, leading from the Melbourne road, to the well timbered ranges, to the east.

A peg and trench ten links in length, are placed at intervals along the lines, at each angle a branded peg and a trench twenty five links in length, are placed pointing truly in the direction of the lines.

At the corner of each allotment the tree nearest, is numbered.

SCALE OF CHAINS.
